"It is a gift to be able to paint a particular picture or to carve a statue, and so to make things more beautiful, but it is far more glorious to carve and paint the very atmosphere and medium through which we work. To affect the quality of the day – that is the highest of the arts."

Henry David Thoreau

"Persistence – Press on – nothing in the world can take the place of persistence. Talent will not – nothing is more common than unsuccessful people with talent. Genius will not – unrewarded genius is almost a proverb. Education will not – the world is full of educated derelicts. Persistence and determination are omnipotent."

Calvin Coolidge
