

1872 Saloon & Old Mill Event Center
 This cozy dive bar and event space is full of rich history and is listed on the National Historic Register. Built in 1872, the original stone building was the first industrial facility of the Dakota Territory. It functioned as a flour mill, and also served as a fur trading post and rail stop. Today, the historical building serves as a saloon and event space full of original character. While you're there, be sure to check out the sandstone wall where visitors would carve their initials.
